PERSONAL PROJECTS

Hotel Hangout (10/2023 - Present)

- Technology Used:-** HTML, CSS, JavaScript, React, Redux, Nodejs, Mongodb
- Details :-** Developed a hotel management web platform featuring user registration and login functionalities. Users can seamlessly search for hotels by location and desired stay duration, accessing a list of available options. The system provides real-time room availability checks and enables users to make secure hotel bookings with ease.
- GitHub Link :-** https://github.com/saurav9283/Hotel_UI

Recipee Hub (04/2023 - 05/2023)

- Details :-** The project is a recipe website where users can browse recipes, save their favorite ones, and create a personal account to access their saved recipes. The website includes a homepage showcasing featured recipes and a sign-in/sign-up page for user authentication.
- Technology Used :-** HTML, CSS, JavaScript, React and NodeJS.
- GitHub Link :-** recipe-frontend-peach.vercel.app

Portfolio Website (03/2023 - Present)

- Technology Used:-** HTML, CSS, JavaScript, Reactjs.
- Details :-** The application also includes features such as responsive design to ensure the portfolio looks great on all devices. Features to help showcase my skills, projects, education, download my Resume and contact me.
- GitHub Link :-** my-portfolio-sage-zeta.vercel.app
